ACOUSTICAL MELAMINE RESIN

The foam panel (1/2" x 24" x 24") of open cell melamine resin translate into an attractive sound absorption profile product.

PRODUCT SPECIFICATIONS

- High sound absorption
- Low thermal conductivity
- High fire resistance
- Low density
- High long-term use temperatures
- No brittleness at low temperatures
- Color - Gray
- Fire behavior - USA: FMVSS 302, UL 94, ASTM E 662, ASTM E 162, ASTM E 84, ASTM E 1354
- Fire behavior - International: ISO 4589-2
